

Life Goals *achieved!*

at Blue Ridge Literacy

July 1, 2021- June 30, 2022

In the 21-21 Fiscal Year, Blue Ridge Literacy continued to provide adult literacy learners in our community with the Functional Literacy Skills they need to reach their life goals. Functional Literacy refers to practical skill-sets required to read, write, and communicate for real-life purposes, so people can function effectively and safely in everyday settings and achieve their long-term plans and goals. We continued offering our integrated English and Health Literacy Classes, Expanded our English and Digital Literacy Program, and increased the study options for participating on our Citizenship Preparation Services.

Blue Ridge Literacy works closely with community partners and service providers in our area to share information about available resources and opportunities in our community. By addressing the informational gap of adult learners, BRL's cross-sectional literacy services help learners gain equitable access to opportunities and resources they need to improve living conditions for themselves and their families. To ensure our learners can access our services, Blue Ridge Literacy offers online and in-person options at different times of the day.
